## **WP3 – Training of the Professionals**

**LEAD PARTNER: IEKEP**

### **D3.1. TRAINING COURSE**

#### **Short description and objectives of the Training Course**

The main objectives of the Training Course are to familiarize staff members of all partners with the SIMRA

- (i) approach and concepts and
- (ii) intervention scheme, so that they will be capable of implementing it in the realm of the pilot implementation (WP 6 and 7).

To achieve these objectives, the Partnership considered essential that the staff members, i.e. the professionals that will be responsible for carrying out the pilot implementation of the intervention scheme that SIMRA is about, should get familiarized with practices and techniques that serve the SIMRA approach and methodological principles. So, another objective of the Training Course is to contribute to the capacity building of the professionals involved in offering services to women migrants/refugees/asylum seekers.

The partners that develop the Lesson Plans (IEKEP, DHR, ELDERBERRY) made use of the material collected by the partners, their suggestions and proposals (WP1) in connection to the Project's proposal, resulting into the Project's Intervention Outline (D2.1 and D.2.2) and reflected into the Training Curriculum (D2.3). It is particularly emphasized that the partnership's intention is to apply in the Training Course cooperative and group oriented learning methodologies informed by the liberal/critical approach for adult learners in accordance to the SIMRA perspective that aims at implementing teaching and counselling methods that facilitate the active participation of adult learners coming from disadvantaged groups (coming from the grassroots).

**SIMRA: Supporting the Integration of Migrant Women, Refugees and Asylum Seekers**
